

GHYCZY

WALTER MW16 / 2005 LIMITED STOCK

The half-shade of this lamp is a metal cast of a turtle's shell, permitting the light to be angled toward the side against a wall or downward (depending on the material implementation). The lamp has a GU10 220 Volt halogen socket and a cable for LED suitable dimmer. The lampshade and base are sand cast and only partially polished. The product is available in different materials and finishes and can be tailor-made to the needs of the customer.

Standard configuration
