ECOSISTEMI DI LUCE

TAKÉ PLUS è la linea di lampade, a sorgente luminosa LED, caratterizzata dalla grande flessibilità d'uso e personalità estetica. Grazie ad un progetto che ne ottimizza assemblaggio e processo produttivo, sono nate 7 diverse tipologie di prodotto in grado di rispondere alle diverse esigenze di illuminazione sia di ambienti domestici che di grandi spazi retail o di intrattenimento, garantendo sempre un elevato standard di qualità della luce.

LIGHT ECOSYSTEM

TAKÉ PLUS is the lamp collection equipped with LED light sources, characterized by a great flexibility of use and aesthetical personality. Thanks to a process that optimizes assembly and productive process, this collection has built up 7 different types of products to meet the diverse needs of lighting: from the most intimate spaces of home, to major retail and entertainment spaces, always ensuring a high standard of quality of light.

ライティング・エコシステム

「タケ・プラス」はLED光源を内蔵した様々な使い方ができる個性的なデザインを特徴としたランプのシリーズ。組み立て及び製造工程を最適化したデザインから7種類のタイプが生まれました。これによって、「高い水準の光のクオリティー」を保持しながら家庭的な環境から商空間に至るまで幅広いニーズにこたえることができます。

TAKÉ PLUS 01

Design VillaTosca

TAKÉ 01 PLUS è la versione da tavolo della serie: costituita da un solo elemento illuminante, ha una resa luminosa di 1100lm ed una potenza di 16W. E' dotata di pulsante di accensione e variatore di intensità luminosa collocato nella parte superiore della lampada. Il diffusore é realizzato in Polietilene (PE) bianco opale. Le finiture disponibili per le basi sono: cromato e bianco opaco.

TAKÉ 01 PLUS table version made of one lighting module; it has a light output of 1100 lm and a power of 16W. It is equipped with a switch and dimmer in the upper part of the lamp. The diffuser is made of opal white Polyethylene (PE). Bases available in the following finishes: chrome and matt white.

「タケ・プラス01」は「タケ」シリーズのテーブルランプです。発光部は一つのモジュールで構成され、16ワット/1100ルーメンの出力/明るさを有します。ランプの上部には電源ボタンがあり、同じ部分を操作することで調光が可能です。グローブはポリエチレン(PE)製(色/オパール・ホワイト)。筐体の仕上げはクロムメッキとホワイト半光沢。

TAKÉ PLUS S&P 04/05/06

Design VillaTosca

TAKÉ PLUS S&P è una particolare versione soffitto-pavimento che ottimizza lo spazio necessario al collocamento della lampada. Il punto di ancoraggio è a soffitto e viene alimentata tramite una normale presa elettrica a parete. È disponibile a 4, 5 o 6 moduli con finitura delle parti metalliche bianco opaco o cromato. È dotata di variatore di intensità luminosa e fornisce una luce uniforme lungo tutto l'elemento diffusore grazie alla particolare tecnologia LED utilizzata.

TAKÉ PLUS S&P is a unique ceiling-floor version that optimizes the available space to collocate the lamp. The anchoring point is on the ceiling and it is powered through a normal electric wall socket. It is available with 4, 5 or 6 sections with the metal parts in matt white or chrome. It is equipped with a dimmer and gives a uniform light along the whole diffuser thanks to its particular LED technology.

「タケ・プラス S&P」は、特別なシーリング/フロアーランプのバージョンです。空間のニーズに適応した形でランプを配置することができます。アンカーポイントは、天井に取り付け、電源は通常の壁に取り付けられた電源プラグを利用することができます。4、5、6モジュールのバリエーションがあり、メタル部のカラーは、ホワイ ト半光沢とクロム仕上げの二種類が用意されています。なお調光器を内蔵しており、特別なLEDテクノロジー採用により光を各モジュール全体に広げることが出来ます。

TAKÉ PLUS S1/S2/S3/S4/S5/S6

Design VillaTosca

TAKÉ PLUS S si declina nelle versioni a sospensione da 1 fino a 6 elementi. Gli attacchi forniti consentono di realizzare versioni in orizzontale, verticale o obliquo. A seconda del numero di elementi, varia la potenza luminosa dei circuiti LED utilizzati: da 16W e 1100lm per l'elemento singolo a 96W e 6600lm per il sistema a 6 elementi. La temperatura di colore dei LED utilizzati è 3000K. Il diffusore è realizzato in PE bianco opale.

TAKÉ PLUS S extends its versions from 1 up to 6 sections suspension lamps. The supplied ceiling holders allow you to make a horizontal, vertical or oblique lamp mounting. According to the number of elements, the light power of the LED strips varies: from 16W and 1100 lm for the single section to 96W and 6600 lm for the 6 sections lighting fixture. The colour temperature of the LED is 3000K. The diffuser is made in opal white PE.

「タケ・プラスS」は、1つから6つのモジュールで展開されるペンダントタイプのランプです。付属の取付金具によって、水平/垂直/傾斜の異なった設置が可能です。全体の出力はモジュールに内蔵されるLED光源の違いで変動します。シングルモジュールは16ワット1100ルーメン、6モジュールは96ワット6600ルーメン。色温度は3000ケルビンのLEDを使用。グローブはポリエチレン製のオパール・ホワイト仕上げ。

TAKÉ 27/27-I/ BUBBLE 04/08

Design VillaTosca

TAKÉ 27 è un sistema di lampade a sospensione semplificato, che permette di utilizzare normali lampadine con attacco E27 fino ad un massimo di 57W. La versione da 1 modulo può essere fissata al soffitto tramite rosone oppure con attacco ad incasso (TAKÉ 27-I). Disponibile con dettagli metallici cromati o laccati bianco opaco.

Partendo dal singolo modulo TAKÉ 27 è possibile configurare sospensioni multiple utilizzando 4, 8 o 12 elementi. Ogni versione dispone di un rosone *ad hoc* con finitura cromo o bianco opaco.

TAKÉ 27 is a simplified system of suspension lamps which allows to use conventional bulbs with E27 sockets, max 57W. The 1 section version can be mounted to the ceiling by means of the ceiling rose or the built-in kit (TAKÉ 27-I). Available with chrome or matt white metal details.

Starting from the single section of TAKÉ 27 it is possible to create multiple suspensions made of 4, 8 or 12 sections. Each version is supplied with an ad hoc ceiling rose, available in chrome or matt white.

「タケ27」は、シンプルなペンダントタイプのランプシステム。E27の金口に最大57ワットの電球の使用が可能です。このシングルモジュールのバージョンは、フランジの取付金具または埋め込み式（タケ27-I）の二種類があります。ディテール部品の塗装は、クロム、ホワイ ト半光沢があります。

「タケ27」のシングルモジュールをベースに4、8、12灯式のシャンデリアタイプの構成が可能です。各バージョンごとに特別なフランジが用意されています。塗装は、クロムとホワイ ト半光沢があります。
