BASIC COLLECTION

it's all in the name: basic.

Basic shapes, nice and balanced sizes and very appropriate finishes make this mirror family one of the most important in our collections. The gold, copper and silver version are masterfully finished with metal leaf at the back of a pure transparent glass plate.

On top, a clear mirror with an elegant small bevel makes the whole irresistible. The youngest member of this family is the more contemporary grey mirror version.

BASIC WING & MIDDLE

With the 'passe-partout' Basic Mirror series, we offer you a wall-covering alternative. Two modular mirrors enable you to create different compositions. Start and end with a WING part, and in-between one or more MIDDLE parts, and space. Both horizontal and vertical positions are possible. An endless story, made to impress.
